QUALITY POLICY

Action Drill & Blast seeks to be the leading global provider of drilling and blasting services.

To be successful, Action Drill & Blast is committed to the following goals:

- Develop and implement processes to ensure all work is performed to a consistently high standard, and in the safest possible manner.
- Provide our customers with an optimum level of quality, service and value, while meeting and exceeding contractual obligations.
- Implement and maintain a Quality Management System that is certified to the requirements of AS/NZS ISO 9001.
- Ensure compliance with applicable legislation and standards to which the organisation operates in.
- Continuously improve our business practices, work methods and management systems.
- Perform all activities in a systematic and controlled manner and in an environment conducive to a philosophy of continued improvement and excellence.
- Communicate our Quality expectations to all employees, so that they are aware of their responsibilities for quality and service standards that meet our customer specifications.
- Foster a culture of continuous improvement by investing in training and professional development. Through ongoing education, skills enhancement, and knowledge sharing, we empower our personnel to enhance quality outcomes, and drive innovation across the business.
- Establish measurable and achievable stretch targets that are regularly reviewed to ensure we assess our performance and improvement.
- Implement an audit schedule of our current operations and subcontractors to help ensure the requirements of this policy are achieved.
- Strengthen climate change leadership within the organisation by identifying, assessing, controlling and monitoring climate change risks and opportunities relevant to the organisation and our interested parties.

Jeff Sleep
General Manager
